Authors

• Eric (New contributor)
• Anthony
Install the package with pip:

```
$ pip install read-the-docs-template
```
$project will solve your problem of where to start with documentation, by providing a basic explanation of how to do it easily.

Look how easy it is to use:

    import project # Get your stuff done
    project.do_stuff()

### 3.1 Features

- Be awesome
- Make things faster

### 3.2 Installation

Install $project by running:

    install project

### 3.3 Contribute

- Issue Tracker: github.com/$project/$project/issues
- Source Code: github.com/$project/$project

### 3.4 Support

If you are having issues, please let us know. We have a mailing list located at: project@google-groups.com
3.5 License

The project is licensed under the BSD license.
To use this template, simply update it:

```python
import read-the-docs-template
```
